

# Account Structure

## Customer Hierarchy

Landauer has introduced a new feature for structuring the accounts within your program called **Customer Hierarchy**. Programs with multiple accounts will be able to view all associated information on myLDR.com including products, services and all participant data at an “enterprise” level for a total program overview.

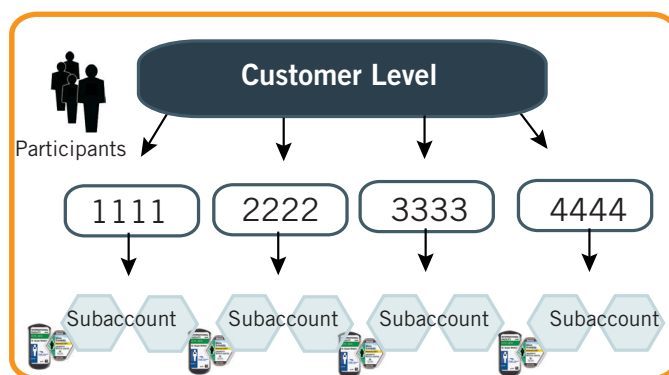

### Customer without Hierarchy Enhancement

- Cannot see participant dose history across multiple accounts
- Searches and queries require initiating 4 separate actions, 1 for each account
- Account or Subaccount level access:
  - » Full update capabilities
  - » Read only

### Experience the Benefits

### Customer with Hierarchy Enhancement

- One access to all accounts (includes participant and dose information)
  - » View participants badged in multiple accounts
- Option to search across all accounts or individual accounts
- Customized access levels for different users
  - » Enterprise access to all information
  - » Limited access to specific accounts and account information
  - » Limit to read-only or full update capabilities

### What does the restructuring of accounts mean for you?

Feature	Benefit
Search across all accounts for dose data or participant information	More efficient program oversight and review – identify all over exposures and ALARA levels at one time. Easily compare unreturned dosimeters, active participants and dosimeter usage from multiple accounts at one time.
Maintain only one spare badge account or subaccount	Reassign a spare/unassigned dosimeter to any participant, regardless of which account or sub-account the dosimeter is being worn - spare badge reassignment made easier, more efficient and more economical.
Easy scan in process for unreturned dosimeters	Eliminate having to group returned dosimeters by each individual account to be scanned.
Custom Authorization levels	Allows for full or limited access within departments. Enable administrative changes or limit access with read-only capabilities for retrieving reports and accessing participant/dosimeter setup.

# Benefits of Customer Hierachy

## What value does it bring to myLDR.com?

### One Comprehensive Client Profile

**Client Profile**

Account:  Subaccount:

Client Profile (Data as of 2013/01/31)

Accounts and Subaccounts		Active Participants		Active Dosimeters		
Account	# of Subaccounts	Frequency	Quantity	Frequency	Type	Quantity
190	0	Annual - 1st	286	Annual - 1st	Pa	555
29379	28	Monthly - 1st	826	Monthly - 1st	Pa	1291
48353	15	Quarterly - 1st	1727	Monthly - 1st	Ta	2
51430	78			Monthly - 1st	U	221
113179	2			Quarterly - 1st	Pa	2669
204004	0			Quarterly - 1st	Ta	16
206751	13			Quarterly - 1st	U	67
489452	0					
489531	0					
489539	0					

View entire program profile

- See all your account numbers
- Total number of subaccounts
- See total number of active participants and dosimeters by frequency and dosimeter type

### More Efficient Participant Maintenance

Maintain participants with dosimeters in multiple accounts within your program

**Dose Category**

**Part Hbr**

**Last Name**

**First Name**

**Middle Initial**

**Print Name**

**Participant Group**

**Participant Type**

**Inception Date**

**Birth Date**

**Gender**

**Occupational Category**

Active Dosimeter Subscriptions

Action	Account	Subaccount Name	Subaccount Code	Dosimeter Type	Frequency	Start Day
<a href="#">Assign Spare</a>	48353	RAD	RAD	Pa	Monthly	1st
<a href="#">Assign Spare</a>	48353	RAD	RAD	Pa	Monthly	1st
<a href="#">Assign Spare</a>	51430	ANGIOGRAPHY	ANG	Pa	Monthly	1st
<a href="#">Assign Spare</a>	51430	ANGIOGRAPHY	ANG	Pa	Monthly	1st
<a href="#">Assign Spare</a>	51430	ANGIOGRAPHY	ANG	U	Monthly	1st

If you don't see the dosimeter you are searching for, click button to add new dosimeter
